

# AATHILA THASNEEM ABDUL MALIK

M.Sc. Microbiology | DMLT | Research-Oriented Microbiology Graduate

■ malikarab31@gmail.com | ■ +91 8526396514 | Chennai, India | LinkedIn: Aathila Thasneem

## PROFILE

Motivated and research-oriented M.Sc. Microbiology student with hands-on laboratory experience in microbiological analysis, food microbiology, and probiotic formulations. Skilled in microbial culture techniques, media preparation, laboratory diagnostics, and scientific documentation. Passionate about food safety, industrial microbiology, and innovative biological solutions with strong communication, analytical, and academic mentoring abilities.

## EDUCATION

| Degree                                          | Institution                                  | Year / Grade            |
|-------------------------------------------------|----------------------------------------------|-------------------------|
| M.Sc. Microbiology                              | Meenakshi Chandrasekaran College for women   | 2024- 2026<br>CGPA: 8.5 |
| B.Sc. Microbiology                              | Sengamala Thayaar Educational Trust college  | 2021-2024<br>CGPA: 9.5  |
| Diploma in Medical Laboratory Technology (DMLT) | Bharathidasan University                     | 2024                    |
| Diploma in Computer Application                 | Bharathidasan University                     | 2017   CGPA: 9.2        |
| Higher Secondary (PCMB)                         | Rahmath Girls Matric Higher Secondary School | 2021                    |

## PROFESSIONAL EXPERIENCE

**Academic Supporter – Brilliant Matriculation Higher Secondary School, Muthupet** (June 2025 – Present)

- Guided IX, SSLC, and HSE (PCMB) students through academic mentoring and subject support.
- Improved student engagement and conceptual understanding through interactive teaching methods.
- Assisted students in examination preparation and performance improvement.

**Intern – Malar Laboratory** (October 2023 – March 2024)

- Performed biological sample preparation and microbiological analysis.
- Assisted in laboratory operations, documentation, and equipment handling.
- Maintained laboratory safety, accuracy, and sample integrity.

## RESEARCH PROJECTS

**Citrus limon as a Natural Antifungal Agent in Food Products**

- Investigated the antifungal properties of *Citrus limon* extracts against food spoilage fungi.
- Evaluated its potential as a natural food preservative alternative.
- Conducted microbiological culture techniques and antifungal activity assessments.

**Formulation of Probiotic Beetroot Drink**

- Studied *Lactobacillus plantarum* for probiotic survival and pathogen inhibition.
- Developed a functional probiotic beverage with nutritional enhancement.

**Development of Coconut Water-Based Functional Beverage**

- Analyzed probiotic viability and microbial stability in beverage formulations.

- Evaluated beverage preservation and quality parameters.

## **PUBLICATION**

### **Environment and Climatic Changes – Volume I**

Conservation of Natural Resources (ISBN: 978-93-94638-83-9)

## **TECHNICAL SKILLS**

- Microbial Culture Techniques
- Media Preparation & Sterilization
- Food Microbiology & Industrial Microbiology
- Probiotic Formulation & Antifungal Activity Analysis
- Laboratory Equipment Handling
- Sample Processing & Scientific Documentation
- Quality Control & Laboratory Safety
- Molecular Biology Basics

## **PROFESSIONAL SKILLS**

- Scientific Communication
- Research & Analytical Thinking
- Team Collaboration
- Academic Mentoring
- Time Management & Problem Solving

## **ADDITIONAL INFORMATION**

**Languages:** Tamil, English, Arabic (Beginner)

**Certification:** Muballigah – Educated Teacher of Islamic Sciences

**Research Interests:** Food Microbiology, Food Safety, Industrial Microbiology, Probiotics, Natural Antimicrobial Agents
